

Turan Taghiev

Community Manager

officiall.turan@gmail.com · linkedin.com/in/turan-t · Turkey (Remote)

Languages: Azerbaijani (Native) · Turkish (C2) · English (B2) · Portuguese (Operational) · Russian (A2)

Community Manager with 2.5 years handling player support and moderation across Turkish, English, and Brazilian Portuguese communities for a live-service multiplayer game: 57,000+ tickets resolved, a 5-language moderation system built, and monthly reports written that shaped team decisions. Comfortable owning a community end to end — support, moderation, and the reporting that connects the two. Longer term, this work is pointing toward Trust & Safety and platform governance.

CORE SKILLS

Community Management · Content Moderation · Player Support · Trust & Safety · Escalation Management · Policy Enforcement · Crisis Management · Multilingual Moderation · Governance Reporting · Discord · Intercom · Notion · Trello · Confluence

EXPERIENCE

Senior Community Moderator & Technical Support Specialist

Mid-size international game studio (multiplayer live-service title, multi-million player base — name withheld under NDA, available on request)

2024 – 2026

- Resolved 57,000+ player support tickets across the Turkish and Brazilian Portuguese communities, handling the Portuguese side through translation-based workflows despite not speaking the language, while keeping response times in line with the English and Turkish teams.
- Built a 5-language, 439-entry moderation blacklist, then moved past keyword matching by adding a behavioral-risk layer that flags accounts based on patterns over time rather than single messages.
- Wrote monthly governance reports on violation trends, repeat offenders, and team capacity, which fed into an 8-page proposal presented to senior management.
- Built a response-macro library across 9 languages (around 90 macros, plus 29 written specifically for Turkish support), cutting reply time and keeping quality consistent across moderators.
- Reviewed ban requests from the helper team and gave input on moderator hiring; several people I recommended were brought on.
- Ran conduct and governance reviews on the moderation team itself, documenting protocol breaches with timestamped evidence for senior management.

Volunteer Community Operations, Standoff 2 Turkey

2023 – 2026 · Personal initiative, alongside primary role

- Co-led community operations with the regional management team on a volunteer basis: grew the community past 5,000 members and founded two dedicated servers (1,500+ and 1,200+ members).
- Set up moderation across 5+ servers and ran tournament and giveaway operations; advocated successfully for improved regional pricing.

EDUCATION

BA International Relations (in progress) — Adnan Menderes University

Expected 2028

Writing

Independent practitioner analysis on content moderation and platform governance, alongside academic research on digital governance and US–China competition (one completed article, one published, one in progress). Full portfolio:
